CEO REVENUE GROWTH ACCELERATOR

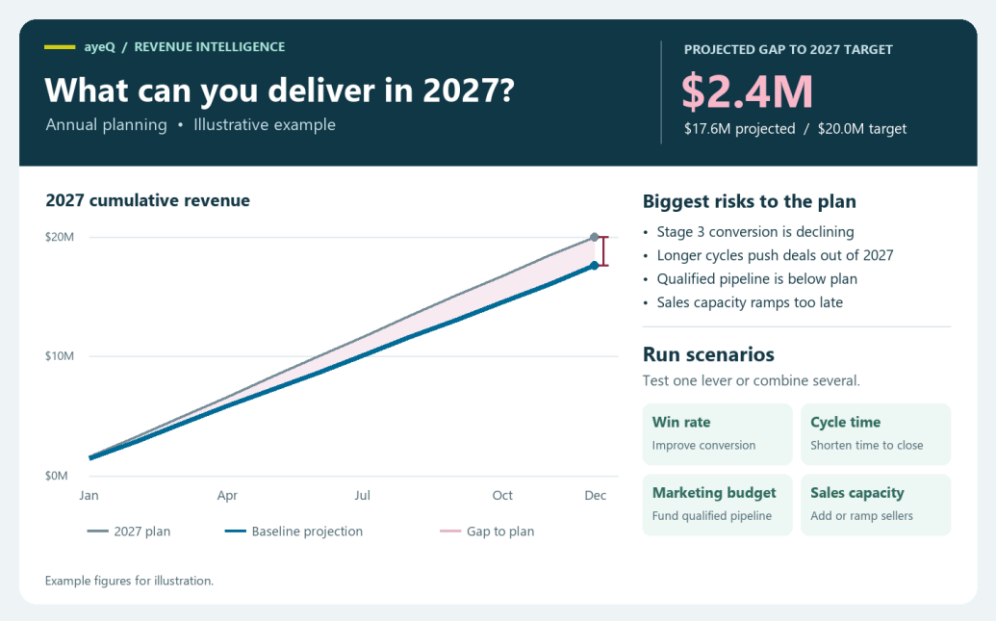
2027 annual planning for CEOs

Can you hit next year's number?

Know what your business can deliver before you commit to the board.

Stop guessing. Engineer a plan that works.

Do you have enough salespeople? Enough marketing budget to build the pipeline? Are deals moving fast enough to close on time? In just 90 days, work with ayeQ Revenue Engineers to validate the baseline, test the plan, and set up continuous monitoring so you can act on emerging risks before you miss the target.



Trusted Truth

Align Finance, Sales, Marketing, and Customer Success on the numbers and assumptions.

Expert Partnership

Work with Revenue Engineers to test what changes could close the gap.

Lasting Discipline

Monitor leading indicators continuously and give each response a clear owner.

THE 90-DAY PLAN

30 DAYS

Establish the baseline

See what your current performance supports and where data gaps affect confidence.

60 DAYS

Test the growth plan

Compare scenarios and identify the changes that could close the gap.

90 DAYS

Monitor and course-correct

Track emerging risks and define who acts when a signal changes.

Engagement goals depend on scope and data readiness. Use Ask Q to explore your connected revenue data.
